GoLive Edit

A TWO-CHANNEL MIXER FOR LIVE SOUND, STREAMING & RECORDING

BUILT BY ALEX PARKER

Shape the sound. Send it where it needs to go.

A focused software mixer for interface inputs, OBS workflows, local stereo recording and hands-on phone control.

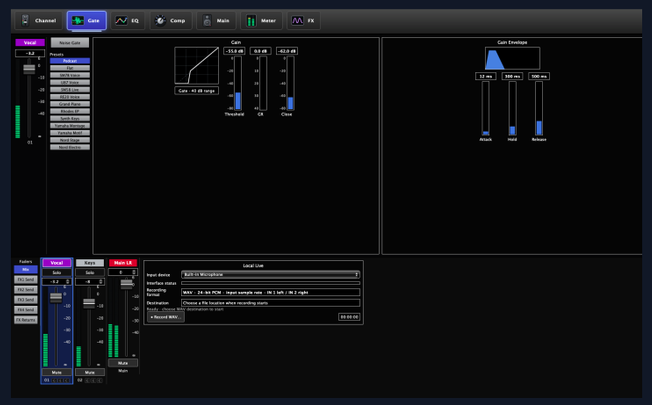

Channel & Local Live

Four FX slots, sends & returns

Parametric EQ with live analyzer

Noise gate controls

One mixer. Two working paths.

Choose Local Live recording or connect to OBS Control.

LOCAL LIVE

Interface IN 1 / IN 2

Gate → Parametric EQ → Compressor
FX sends / returns → Stereo WAV

OBS CONTROL

OBS audio sources → Channels

GoLive processing & mixer controls
OBS handles scenes, stream & output

PHONE REMOTE

Same Wi-Fi → secure pairing

Faders • mute • solo • meters
Remote control only; audio stays on Mac
